Example

I would like to write a very comprehensive and in depth tutorials blog on Composer which is being used with PHP. Can you please suggest me very each section and subsection for this tutorials.\

Creating a comprehensive tutorial on Composer, the dependency manager for PHP, requires a well-structured approach to cover all aspects of its usage. Here's an outline with detailed sections and subsections that you can use for your blog:

1. Introduction to Composer

- 1.1. What is Composer?
 - Overview of Composer
 - Comparison with other dependency managers
 - Why use Composer in PHP projects?
- 1.2. Prerequisites
 - Basic knowledge of PHP
 - Command-line basics
- 1.3. Installation
 - 1.3.1. Installing Composer Locally
 - 1.3.2. Installing Composer Globally
 - 1.3.3. Verifying Installation
 - 1.3.4. Common installation issues and troubleshooting
